LOCATION

BABSON COLLEGE LOCATION

Babson College is located approximately 14 miles west of Boston in Wellesley, Massachusetts. A well-regarded suburb of Boston, it is best known as the home of both Wellesley College and Babson College. According to Boston Magazine's yearly "Best Places to Live" issue, Wellesley ranks first in the United States in percentage of adults who hold at least one college degree.

Boston is the capital of the Commonwealth of Massachusetts and the largest city in the New England region. Studying in Boston will provide you with an opportunity to experience one of the oldest cities in the United States and a first-hand glimpse of American History. Many of the most important events of the American Revolution and the founding of this country took place in or around Boston. Historical monuments and museums can be found throughout the City, in addition to a variety of activities to suit every interest and taste.

Boston is considered a college city and has been a center of education and culture since 1636. With over 100 colleges and universities located in the greater Boston area, the student population comes in at about 250,000 people. Approximately 10% are international students!

GETTING AROUND

RESOURCES DURING YOUR STAY

Exploring the Suburbs:

Driving is the most common (and easiest) way to get around the areas outside of the city, including the Wellesley area. If you rent a car, it is suggested that you request a GPS system.

Exploring Boston:

Walking and using public transportation are the best ways to explore the City of Boston because driving and parking in Boston tends to be difficult and expensive. Boston is known as America's Most Walkable City and only a short stroll through the City's neighborhoods will prove that point. From the North End to the Back Bay, from Beacon Hill to the South End, and from Charlestown to the Financial District, most of Boston's most interesting neighborhoods are connected by the Freedom Trail, a self-guided walking tour which brings Boston's history to life. Check out www.bostonusa.com for more details.

TAXIS AND CAR SERVICES

Here is a list of some taxi services. Please note that taxis pick up passengers only in cities where they have licenses and a 10-15% tip to the driver is standard. It is not appropriate to haggle with the driver over the fare.

COMMUNICATION

CELL (MOBILE & WIRELESS) PHONE SERVICE

Cell phones in the U.S. work on different frequencies than in most other parts of the world; therefore, even if you have a cell phone in your home country, it may not work here.

Tri-Band Phones & SIM Cards:

If you have a cell phone that is a tri-band phone (a GSM phone that supports three of the four major GSM frequency bands, which work in most parts of the world) you will need to buy a new SIM card from a U.S. cellular company. A SIM card is a removable card that stores a user's service information as well as personal contacts. It allows users to change phones by simply removing the SIM card from one cell phone and replacing it with another.

Prepaid (to go) Plans:

A better option may be to get a Prepaid Plan, which is offered by most major companies and is also available through electronic retail stores (Best Buy, Radio Shack). A Prepaid Plan means you have to pay a fee (according to your rate-plan) a month in advance; however you may terminate the service any time you like. The company charges your card automatically, on the same date every month, unless you call to terminate your service. No subscription fee is required and you only pay the sum of your rate-plan.

Skype:

With the free download from www.skype.com, you can talk to your family or friends who are also online with no charge using your computer. You will need to install SKYPE, and set up a microphone and headsets/speakers. You can also call from your computer to regular phones (including international calls) with some fees. Other services include free online chat and free video calls (if you have a webcam).

Internet:

All rooms on campus have free wireless internet access, which you can connect to from your laptop. You can also access the internet from any one of the many computers on campus.

SAFETY ON CAMPUS

The Babson College Office of Public Safety provides law enforcement, security and emergency services for all property owned by the College 24 hours a day, seven days a week. You can visit or contact this office at (781) 239-5555 or at extension 5555 from any campus phone. There are a number of well-marked emergency phones around campus that can be used to report a criminal incident, a fire, or any other type of emergency, or to request an escort from Public Safety. Public Safety dispatch is staffed 24 hours a day, 365 days a year. The Public Safety staff can also assist you in reporting off-campus incidents to local police departments.

In addition to the Public Safety staff and officers, members of the Campus Life staff, including 7 professional staff members, live on campus. You should feel free to discuss community concerns and issues of security and safety with these staff members, who may then relay the information to the Office of Public Safety when appropriate.

As is the case when travelling to any city or university campus, it is important to exercise caution off and on campus, with your belongings as well as your personal safety. Do not leave your belongings unattended and keep your room locked whenever you are away. Do not hesitate to contact the Office of Public Safety for an escort if you need to walk across campus alone at night at 1-781-239-5555.

For more information about safety on campus, please read the following booklet published by the Office of Public Safety: www.bostonpublicsafety.com

SAFETY IN THE UNITED STATES

Life in the U.S., especially in urban areas, is often perceived by people outside the U.S. as dangerous. The international media plays a large role in generating such a perception by reporting violent incidents, which actually occur very infrequently. **While you should not live in fear during your time in the U.S. and in Boston, you should remain vigilant and aware of your surroundings as well as available emergency services and protocol (this is the most important thing to remember).**

Emergency Numbers and dialing “9-1-1”:

If you are ever in an emergency situation, dial 911 from any telephone. The call is always free, even from a payphone. A 911 call should be made with discretion. It is appropriate to call 911 when a crime is in progress, when someone is seriously injured, or when there is a situation involving death or near death. It is important not to use 911 for reporting a crime after the fact, such as an apartment or car break-in.

IMPORTANT HEALTH INFORMATION

Insurance Requirements:

Massachusetts Qualifying Student Health Insurance Plan (QSHIP) is a law that requires all students to show proof that they have health insurance coverage while they are attending a higher education institution in the Commonwealth of Massachusetts.

Students must have valid international health insurance that covers health problems in the US and specifically in Massachusetts. **Babson College is not responsible for any student without health coverage.** Students coming to Babson must make sure they have insurance valid in the US and be familiar with how this insurance works. Please bring a copy of the procedure of how to use your health insurance and coverage in case you need it.

Nearby Hospitals and Clinics:

Finding Doctors/Specialists

If you become ill or injured and require non-emergency medical attention while at Babson, we recommend the following options. It is important to understand that up-front payment is typically required for medical treatment in the US and International insurance coverage is often handled as a reimbursement to the patient after the fact. **Please note that visitors to Babson College cannot use the campus health center.**

ALCOHOL AND ILLEGAL SUBSTANCES

The legal drinking age in the United States is 21. It is important to be aware that, although alcohol consumption might be more common in some countries, and it might be legal for you to drink alcoholic beverages at home, police (both on and off campus) are *very* strict about enforcing U.S. drinking laws. If you are over 21, it is also illegal to provide alcohol to minors (those under 21).

Babson College must also comply with state and federal laws regarding the use of nonprescription drugs. The use, possession, sale, or distribution of drugs or drug paraphernalia is strictly prohibited and could result in removal from housing, separation from the College, other sanctions as deemed appropriate, and referral for criminal prosecution.
