TODAY:
FOCUS GROUP

INSTRUCTIONS

What do you think about the EURO Employability Innovation Project?

What am I being asked to do?

You are being asked to take part in a discussion, which will last about an hour.
During the group you will be asked to talk about your experiences working with the project. With your permission, the discussion will be audio recorded. There are no right or wrong answers – we are only interested in what you think.

Will anybody find out what I have said?

No, nobody will be able to find out what you have said. We are holding several discussion groups. The things that people talk about during this discussion will be summarized and included in a report for the Universities taking part and the funders by a company called Brainbox Research, but nobody will find out who said what.

Do I have to take part?

No, we hope that you will take part so that you can tell us what you think, but you don't have to, and you will not be treated any differently whether you decide to take part or not.

What if I decide during the discussion that I don't want to take part any more?

That's ok – just tell the person running the discussion group that you don't want to talk any more and you can leave. You don't have to give a reason.

What if I have some questions?

If there's anything you're not sure about, or if you have any questions, you can ask the person running the group before it begins.

Please sign the consent to take part

Remember this session will be recorded, we are going to analyze the information, with the feedback about the course.

Would you be so kind to sign the consent to take part?

It will be available in:
http://observatorio.umh.es/2013/10/06/welcome-to-creativity-course/ Send it signed to: d.lopez@umh.es

The consent

- I have read and understood the information sheet for the study and I understand what is expected of me
- I understand that taking part is voluntary
- I give my consent to be audio-recorded during the discussion. I understand that any written record of what I say will be anonymised
- I confirm that I have been given the opportunity to ask questions about the study and if I asked, my questions were answered fully

If someone does not agree on any of the statemets can leave the room

Set the Scene

1. We will send you a **google docs questionnaire** for you to give us detailed feedback.
2. **Let's comment some issues** regarding Creativity module and Schoology tool
3. Procedure:
   a. I will ask a(some) question(s),
   b. Rise hands If you want to expose your case
   c. I will give word to one person
   d. This person writes on the chat
   e. The rest can argue/comment through chat window.

Thanks to collaborate and help us improve this course

Do you have any question?

Let's have a try

1. Procedure:
   a. I will ask a question: **Why did you choose this module?**
   b. Rise hands If you want to expose your case
   c. I will give word to one person
   d. This person writes on the chat
   e. The rest can argue/comment through chat window.

Thanks to collaborate and help us improve this course

Question 1: The course

- Why did you choose this module?

- What do yo think about it? How was it delivered? What did you learn? How, if at all, has it changed the way you think about your skills?

Question 2: Creativity

- Why are creativity skills important? Or not? To you? To employers? To the economy?

- Compared to before this module, how confident or unconfident are you about your skill levels?

Question 3: About the module

- How, if at all, will you use what you have learnt on this module in your job search? In your future career?

- How useful was this module? Why do you think that?

- How could this module have been improved?

- How enjoyable was it? Why?

Question 4: The tool Schoology

- What did you think of the technology? How did it affect your learning experience? How could it have been improved?
- Overall, how could this module be improved?

Question 5

- Do yo know anyone who has found employment using some of the tools you have practiced in this course?
