

Yes! With your passion and our technology we can change the future. Transport is more than simply a matter of carrying passengers and freight. At Alstom Transport we have a word for this: Designing Fluidity and it is at the core of everything we do. We combine the most comprehensive range of railways products and services available: Trains, Infrastructure, Signalling and Services with unmatched international experience. If you're looking for a world of economical, social and environmental changes, stop looking. It is time to act and think ahead.

it's all
about
people!

Your future at Alstom!

ALSTOM TALENT ENERGY

The Alstom Talent Energy Plan is a **12 months internship program for Fresh Graduates with recognized Master**. We incorporate in the teams of Alstom Transport 40 interns with different academic backgrounds to prepare their future integration on the labor market. **It is a great opportunity to benefit during a full year learnings from excellent professionals in an international work environment collaborating on significant railways projects.**

PROGRAM STRUCTURE

Alstom offers **40 intern positions, full day** based in its Spanish offices of **Madrid and Barcelona's areas** in collaboration with Fundación Universidad-Empresa.

Once achieved with success the selection process, you will benefit from an **in-house integration program** which aims is to get yourself familiarized with the culture of Alstom and its values. During this stage, your assigned tutor will set you **specific objectives of your project within Alstom**. Those objectives will be periodically reviewed and evaluated at the end of the year through a formal presentation to the **Alstom Top Management**. During the year you will participate to several trainings and meetings with Senior Managers of the Company.

Yes! The Railway industry today is characterized by both a strong and sustained growth across the world. The trends that drive this are well known: environmental challenges, population growth, urbanization and increasing demands for mobility.

With 6,2B€ of Sales and around 28,000 employees based in over 60 countries, Alstom Transport develop & market the most complete range of systems, equipment and services offered today in the railway sector. Today we offer our customers solutions that feature a seamless blend of diverse technologies, ensuring optimal interfaces, along with flexible implementation and real synergy in innovation.
